UNTAMED

IN COLLABORATION WITH NATURE

UNTAMED

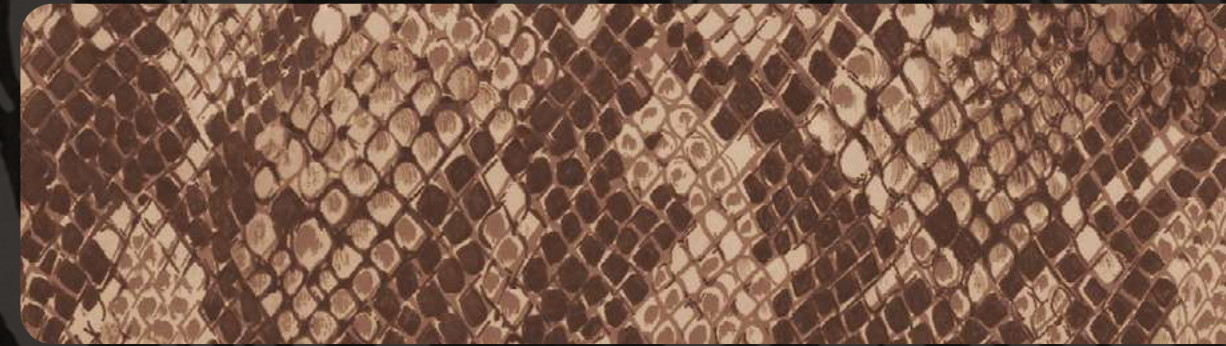

IN COLLABORATION WITH NATURE

A love letter to animal print, this collection is not just about pattern; it's about attitude, allure and animal magnetism.

We're reimagining "Nature's neutrals" as both an artistic language and a form of activism; a way to celebrate the creatures who inspired the collection, and a way to give back to the ecosystems that created them.

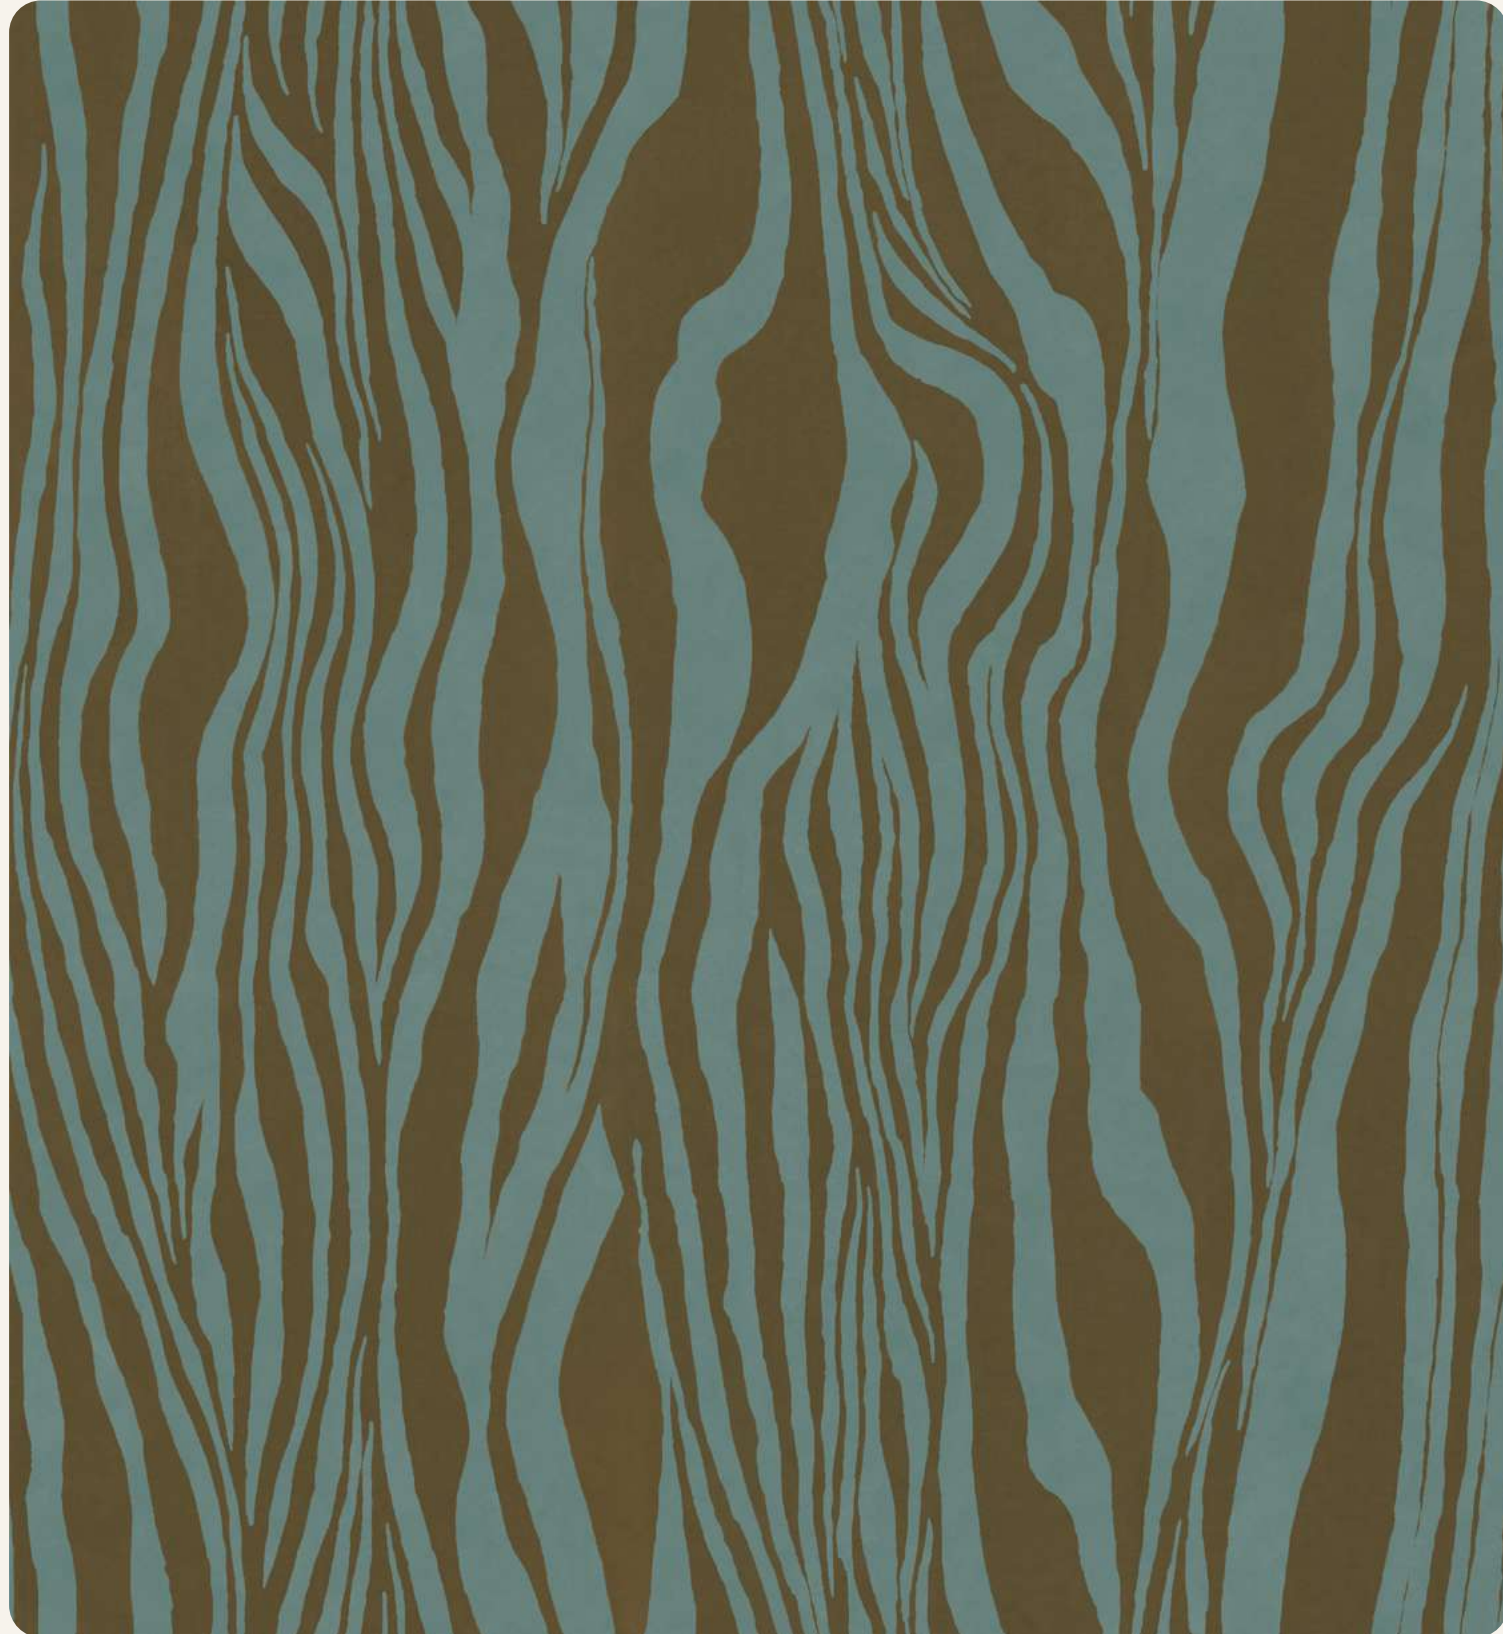

With hand-drawn, stylised camouflage prints and scanned, true-to-life patterns, the range includes Forest Stewardship Council certified wallpapers, sumptuous British-made cotton-velvets, organic and recycled cotton-linens, locally handcrafted furniture and home accessories with regenerative wool, that pay homage to Nature's prints and palette. Our award-winning fabric and paint collections have been built upon, with new 100% HEAVENLY HEMP shades, woven from pure hemp fibres, which uses no pesticides and little water, and 8 new neutral hues of richly pigmented, low VOC, water-based paint, swatched from the tones of the natural world.

With cheetah prints, snakeskins, zebra patterns, tiger stripes, giraffe motifs and leopard print, each piece in the collection has been created in collaboration with the animal that inspired it. Through our partnership with World Land Trust, we have developed the concept of a Nature Licensing Fee, recognising the design and material contributions Nature has made; as a collaborator, not a commodity.
