WHERE STILLNESS MEETS THE LIGHT, SOFTLY TEXTURED FOR QUIET LIVING – CALISTA by Warwick

Drawn from a desire for slower living and disconnection, CALISTA reflects the quiet beauty of remote escapes, where natural textures, filtered light and raw materiality shape the atmosphere of a space. This softly textural sheer evokes a sense of ease, balancing rustic warmth with refined contemporary living.

- **DESIGN:** CALISTA is a self-weighted, semi-sheer designed with an open weave construction embracing subtle irregularity and understated texture. Slubbed yarns of varied widths create cross-hatched detailing with a softly mottled surface, reminiscent of natural hessian and handcrafted textiles. Finished with a subtle sheen, CALISTA will catch the light, adding softness while maintaining its organic character. A design that feels equally at home within rustic, coastal and contemporary interiors that celebrate layered materiality and natural finishes.
- **APPLICATION:** Developed for both residential and commercial interiors, CALISTA combines a relaxed aesthetic with the durability and practicality of a synthetic composition, along with a continuous construction enhancing versatility across expansive glazing and high ceiling applications for a seamless finish. While it has a dry, textural handle, CALISTA carries a fluid weight and beautiful drape ideal for generous puddling and relaxed movement which will filter natural light for privacy and comfort.
- **COLOURWAYS:** CALISTA'S palette is grounded in landscape-inspired tones that reflect the collection's natural sensibility. Dusty neutrals and de-saturated hues including Clay, Sage, Pewter and Putty create a refined yet organic aesthetic. Each shade draws a subtle connection to the natural environment, from weathered stone and burnt earth through to muted foliage and soft mineral tones.
- **RATING:** Oeko-Tex certification with a AS1530.2 fire rating.
